

Esperanza Ceron Jordan,

More affectionately known as Hopie was called home to God's comforting arms on Wednesday, October 21st. She was gifted to the World August 1st, 1930 in Mexico City, Mexico. Her formal education consisted of the first three years of primary school but by way of the World she began working as a small child to help her family as she was known throughout her lifetime until her passing to do so. In her

journey as divinity would have it she met her Husband in Juarez, Mexico. A language barrier existed but could not defeat the love that brought her next chapter. In this love story she travelled to new foreign countries, made lifelong friendships and created new founding members of our beloved Jordan family who ultimately settled by way of her Husband's military career to San Antonio, Texas. She worked for N.E.I.S.D. primarily serving the Roosevelt and Ed White Schools in their cafeterias for 20 years and retiring also with a legacy of lifelong friendships. She was also an entrepreneur in her own right, a seamstress, consistent in juggling more than one job while raising a family and making time for people she adored. Esperanza known for a quick genuinely beautiful smile, warmth, eager hand in help and sassy advice has easily made her way into so many hearts. She persevered through any circumstance presented and was always on the go. At the drop of a hat, music would have her dancing in the spot she heard it with no care to who was watching along with her infectious smile and laughter in tow. Her love of a good deal and frugality paved her way and so many memories as well which created opportunity for her family and their families. In the last few years of her life she spent it being doted on by loving family, friends and her most devoted, loving husband of sixty-two years. This great love surrounded her as well when God decided her work on Earth was done. She will forever continue working in our hearts and her legacy in the heartbeats of the people she touched throughout her life time.
